JOURNAL OF INSURANCE ISSUES

Jointly sponsored by the Western and the Southern Risk and Insurance Associations

The *Journal of Insurance Issues* (*JII*) is a peer-reviewed scholarly journal that publishes rigorous theoretical and empirical research in the field of risk and insurance. The *JII* encourages new perspectives and is open to all research methods including, but not limited to, empirical studies, mathematical proofs, laboratory experiments and simulations. All manuscripts, including empirical manuscripts, need to test, extend, and/or develop new theory that is relevant and timely for public policy or practitioners. Each year, one article from *JII* is selected for the prestigious [Donald Hardigree Award](#).

The *JII* is included in the [Emerging Sources Citation Index](#) (ESCI) - a multidisciplinary citation index covering all areas of the scholarly literature of the sciences, social sciences and arts & humanities. The *Journal* is also listed in [Cabell's](#). All issues of the *JII* are available online through [JSTOR](#). In addition to JSTOR, articles included in the journal are also available in [Business Source Complete](#), [ABI/INFORM Global](#), and [RePec](#), among others.

All submissions should be sent to journalofinsuranceissues@gmail.com. Manuscripts submitted to the *JII* must not have been published in, or submitted for concurrent review with, another journal. Successful authors will be required to submit the final version of their papers in MSWord form and assign copyrights to the *JII*'s publisher. For more information about the submission and review process, the *JII*, and/or its sponsoring associations, see the *JII* website at www.insuranceissues.org.
